Overview

eRecruiter's suite of customizable applications automate, accelerate, and manage the entire recruiting and hiring process, from creating and posting job requisitions through completing the hire. eRecruiter applications enhance your ability to build stronger relationships with candidates and valued employees so you can improve workforce deployment, management, and retention.

Snapshots of the hiring process

Our intuitive dashboard presentation streamlines the entire process, keeping all necessary information in front of the employer or job seeker at all times.

Automation and efficiency from end to end

eRecruiter's applications encompass the full breadth of the hiring process, from the presentation of job posting all the way through to the acquisition of new hires.

Integration with current systems

Our open architecture easily integrates with your existing HR systems, enabling you to maximize your investment in technology, training, and people.

Extensible and Customizable

Easily add new features as they become available and modify existing features to match your current recruiting needs.

Modular Design

eRecruiter's modular design allows features to be added or removed without affecting the integrity of the application.

Private Labeling

Each of our applications can be tailored to your organization's look and feel, which helps you increase and maintain your valuable brand recognition.

Connecting and Empowering

A Web-based front end to our applications connect and empower the key players in the hiring process – recruiters, hiring managers, job seekers, and employees.

Globalization

eRecruiter's products are globalized, and easily localized for multiple languages.

Browser Agnostic

eRecruiter's applications are compatible with today's most widely used browsers including Internet Explorer 4.0 and above, and Netscape 4.0 and above.

Key Features

Part of what makes eRecruiter's applications intuitive and easy to use are our key features:

- Context-Sensitive Help • Integrated Spell Checking
- Customizable Advanced Search • Resume Wizard
- Job Wizard • Interview and Communication Wizards
- Resume Retrievers • Job Retrievers • Reporting • User Management
- Job Seeker Dashboard • Employer Dashboard
- Private and Public Message Boards • Integrated Payment System

Most important, eRecruiter applications provide increased productivity and rapid, quantifiable return on investment for all our customers: corporations, universities, associations, and not-for-profits.
